

LENOX® Introduces CircTech® Precision CM 100 Circular Saw Blades

Designed for Optimal Performance in Industrial Precision Circular Sawing

EAST LONGMEADOW, MA [September 2018] – [LENOX®](#) introduces the **CircTech® Precision CM 100 Circular Saw Blade**, a new product in the LENOX industrial circular saw blade lineup, designed for optimal performance when cutting carbon steels and mild alloys.

Beneficial in a variety of industries including steel service centers, machine job shops, automotive and aerospace, the new LENOX® CircTech® Precision CM 100 Circular Saw Blade features:

- **Long Blade Life.** The LENOX® CircTech® Precision CM 100 Circular Saw Blades' cermet tooth tips help to withstand heat and offer wear resistance, while a honed tooth edge helps to reduce noise, tip fractures, and extends blade life.
- **Straight cuts and excellent finish.** The CircTech® CM 100's unique tooth geometry maximizes cutting efficiency and provides straight cuts with a mirror-like finish. An optimized, radius-shaped chip breaker helps eliminate weak points in high stress areas on the blades' tip, providing durability to the teeth, resulting in straight cuts and an excellent finish.
- **Consistency.** Plates are laser cut and expertly flattened, while an advanced tensioning system maintains plate flatness and keeps tight tolerances. Precise grinding, plate flatness and balance offer consistency and high performance, cut after cut. Run out and flatness are considered among the best in the industry.

"The industrial cutting market is constantly changing and our customers demand solutions that improve their cutting performance. CircTech® CM100 allows LENOX® to meet our customers' cutting challenges," commented Dan Fernandes, Global Product Manager.

LENOX® has a long, storied tradition of manufacturing solutions to cutting challenges for over 100 years. In 2012, LENOX® purchased FLAI Srl. to produce circular saw blades and help its entry into the Precision Circular Saw market. All LENOX® Precision blades are manufactured in Italy with the latest technology and highest manufacturing techniques. With **Guaranteed Performance**, LENOX® assures the end-user that any of LENOX's recommended blades will outperform the end-users' present blade or their money back - that's the LENOX® *Guaranteed Trial Order (GTO)*.

LENOX® CircTech® Precision CM 100 Saw Blades can be purchased at LENOX® industrial products distributors. To locate a distributor near you www.lenoxtools.com/FindRetailer/FindDistributor.aspx.

About LENOX

LENOX® blades deliver high performance and are guaranteed to cut through tough materials. With over a century of cutting expertise and category breakthroughs, LENOX has become a gold standard in power tool accessories, hand tools, and band saw blades,® helping users deliver work that is sure to stand out and be recognized on the job. LENOX provides the cutting performance and support that allows you to get it right the first time, every time.

LENOX is part of Stanley Black & Decker, an S&P 500 company and a diversified global provider of hand tools, power tools and related accessories, electronic security solutions, healthcare solutions, engineered fastening systems. For more information, visit www.stanleyblackanddecker.com.
