

LENOX® Wins Three 2021 Pro Tool Innovation Awards

The LENOX 360™ System Recognized For Year's Most Innovative Products

TOWSON, Md. September 23, 2021 – LENOX® announced today that it has been awarded three Pro Tool Innovation Awards, representing best-in-class products in the construction industry. Winning products were selected based on innovative features, advanced power delivery, improved ergonomics, technological advancements, developments in jobsite safety, and overall user value. As a highly respected source in the trade space, Pro Tool Reviews tested nearly 500 tools from 89 manufacturers to determine this year's winners.

LENOX Product Award Winners

- **Best Software & Apps, Tool Control:** The LENOX 360™ Bandsaw Monitoring System
- **Best Hand Tools-Cutting :** LENOX Aviation Snips
- **Best Accessories-Blades, Band Saw:** GEN-TECH™ Band Saw Blade

"Innovation is the cornerstone of product development across all Stanley Black & Decker brands," said Jaime Ramirez, Executive Vice President & President of Global Tools & Storage for Stanley Black & Decker. "To deliver on our mission of empowering those who make the world, we are unwavering in our promise to provide the tools, technology, and resources professionals in the trades and construction industry need to get the job done."

The LENOX 360™ System is one of the most notable wins for the brand. The monitoring system provides access to key insights, measurements and the control of valuable sawing operations data. This technology is ideal for steel service centers and fabrication shops as it is designed to improve decision making and maximize efficiency by capturing data in real time by using a collection of sensors installed on the saw.

"Our brands are continuing to push the industry forward through groundbreaking new features that improve the user experience," said Tabata Gomez, Chief Marketing Officer of Global Tools & Storage for Stanley Black & Decker. "We are committed to providing products that directly contribute to our customers' productivity and overall performance."
